Gentlemen:

The Texas Company hereby makes application for a 317-acre non-standard proration unit comprising the N/2 of Section 18, T-19-S, R-37-E, Lea County, New Mexico, to be assigned to its Keohane Unit Well No. 1, which produces from the Eumont Gas Pool, and, in support thereof, states the following:

1. The Texas Company is the owner and operator of the Keohane Unit Well No. 1, which is located at Position "C," 660 feet from the North Line and 2200 feet from the West Line, Section 18, T-19-S, R-37-E, Lea County, New Mexico. The location of this well is indicated on the attached plat. will require communication
2. The Texas Company's Keohane Unit Well No. 1 was completed April 14, 1955, in the open hole interval from 3500-3700 feet in the Queen formation, which is included in the vertical delineation of the Eumont Gas Pool. Said well had an initial open flow potential of 4830 MCF per day, and its present capacity is 6000+ MCF per day.
3. A communization agreement has been executed by all of the working interest owners of acreage within the N/2 of Section 18. This communization agreement will extend the present 159-acre proration unit, outlined in yellow on the attached plat, assigned to the Keohane Unit Well No. 1 to include the S/2 of the N/2 of Section 18, which is under lease to Gulf Oil Corporation. The resulting 317-acre non-standard proration
