

Mr. Parney,

As per our telephone
conversation of 1-30-69,
we do not plan to tie in
the $5\frac{1}{2}$ " log to surface.
We plan to ~~connect~~ ^{use} the
 $9\frac{5}{8}$ " log as oil string
and use the $5\frac{1}{2}$ " as a
liner. As per diagram,
the $9\frac{5}{8}$ " + $5\frac{1}{2}$ " strings
are tied together w/ 199'
of cement based on temp.
survey.

C.R. Kozicki
