Mr. P. J. Vesley  
State Oil & Gas Inspector  
Carlsbad, New Mexico

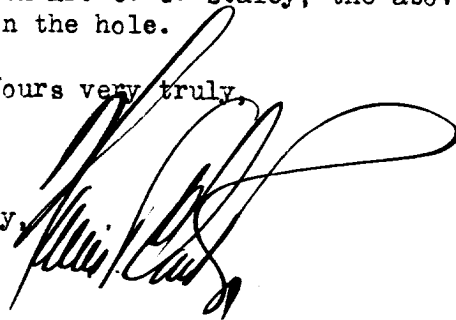

Dear Sir:

Supplementing our completion report on our P. C. Klingsmith well No. 1, in ~~SE 1/4~~ ~~SE 1/4~~ Section 20, T 19S, R 37E, Monument field.

Wish to advise that prior to running 3880' of 2 7/8" OD tubing, a previous string was dropped in the hole and was recovered with the exception of four joints plus approximately 26' of another joint. After fishing for several days and discussing the condition with Mr. C. G. Staley, the above amount of tubing was left in the hole.

Yours very truly,

By,

HTC:B
