**Semi-Annual well status report**

Detailed account of work done, nature and quantity of materials used, and results obtained.

Well status is the same as reported on Oil Conservation Commission Form C-103, approved September 19, 1962. The subject well is now standing and no surface pressure has been noted on frequent check. The Standard Oil Company of Texas respectfully requests the approval to continue temporary abandoned status. Studies are now in progress of a cooperative secondary recovery project with other operators in the area. Should the project materialize, the well will be included in the project.
