FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Under date of September 2, 1950 we filed a Notice of Intention to Drill on Southern Union Gas Company #1 Burke and in so doing in part signified our intention of running 3500' of 9-5/8" casing. We have since acquired a string of 8-5/8" casing which we did not possess at the time the original Intention was filed. We therefore wish to modify our intention to the extent that we will run and cement 8-5/8" casing at 3575' with 1600 sacks, or a sufficient amount to bring the cement well above the top of Rustler Anhydrite. In this event we will not need to perforate in the Rustler Anhydrite and do a two-stage cement job on the intermediate string as proposed in the original notice of Intention.
