Mr. Prentiss Watts, Jr.  
Astec Oil and Gas  
P. O. Box 847  
Hobbs, New Mexico

Re: GOR Burke #2

Dear Mr. Watts:

Regarding the recent Gas-Oil Ratio submitted by the Astec Oil & Gas Company for their Burke #2-H Sec. 28-T198-R37E, NMPM, Lea County, New Mexico, the Commission would like to request that this well be re-tested at a rate that will more nearly approach the average rate of production for the year 1955. We feel that such a re-test is necessary, due to the large volume of oil produced by this well. I would also like to request that the Gas-Oil Ratio test be conducted at the gas rate of from 350 to 550 mcf per day. The re-test may be made at your convenience and we would appreciate it if you will notify us two days prior to the re-testing of this well, so that a representative of the Commission may be present.

Yours sincerely,

OIL CONSERVATION COMMISSION

C. M. Rieder
