

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

ARTICLES

The first of the two papers in this section, by Dr. J. H. Hays, is a review of the literature on the subject of the "psychic" or "psychic" factors in the etiology of disease. The second paper, by Dr. J. H. Hays, is a review of the literature on the subject of the "psychic" or "psychic" factors in the etiology of disease.

THE PSYCHIC FACTORS IN THE ETIOLOGY OF DISEASE

Dr. J. H. Hays, in his paper, "The Psychic Factors in the Etiology of Disease," discusses the role of the mind in the causation of disease. He points out that the mind is a powerful factor in the etiology of disease, and that it can be a source of both physical and mental illness. He also discusses the role of the mind in the treatment of disease, and the importance of the patient's attitude towards his illness.
