Date

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as

Amerada Petroleum Corporation

Larsen

Well No. 3

in NW 1/4 NE 1/4

Company or Operator

Lease

of Sec. 32, T. 19

R. 37, N. M. P. M.,

Monument

Field, Lea

County.

N.

The well is 660' feet ~~(N)~~ (S.) of the North line and 1980' feet

~~(E)~~ (W.) of the East line of 32-19-37

(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. .... Assignment No. ....

If patented land the owner is .....

Address .....

If government land the permittee is .....

Address .....

The lessee is Amerada Petroleum Corporation

Address Tulsa, Oklahoma

We propose to drill well with drilling equipment as follows: .....

Rotary

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: .....

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
17 1/2"	12 1/8"	40#	New Lap Weld	Minimum of 150' or 50' in red beds		200
11"	8-5/8"	32#	New Seamless	2400' or Thru Salt		500
7-7/8"	6 5/8"	20#	New Seamless	3800' or on top of Pay		100

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 3800' feet.

STATEMENT OF WORK

The purpose of this Statement of Work is to define the scope, objectives, and deliverables of the project. It serves as a contract between the client and the contractor, outlining the specific tasks to be performed and the expected outcomes.

The project is intended to provide a comprehensive analysis of the current land management practices and to identify areas for improvement. The contractor is responsible for conducting field research, data collection, and analysis, and for providing regular reports to the client.

The project will be completed within a six-month period, starting from the date of contract execution. The contractor is expected to maintain close communication with the client throughout the project, providing updates on progress and any issues that may arise.

The deliverables of this project include a final report detailing the findings of the research, a set of recommendations for improved land management practices, and a series of presentations to be held for the client's staff.

The client will provide the necessary resources and support for the project, including access to land management data and personnel. The contractor is responsible for providing the expertise and labor required to complete the project successfully.

The project budget is estimated to be \$100,000. The contractor is responsible for providing a detailed budget breakdown and for managing the project within the allocated funds.

The project is subject to the terms and conditions of the contract. Any changes to the scope or schedule must be approved by the client in writing. The contractor is responsible for ensuring that all work is completed in accordance with the contract requirements.

The project is intended to be a model for future land management projects. The contractor is expected to provide a high level of professionalism and attention to detail throughout the project.

The project is a high-priority initiative for the client. The contractor is expected to complete the project as quickly and efficiently as possible, while maintaining the highest quality of work.

The project is a critical component of the client's land management strategy. The contractor is expected to provide a thorough and accurate analysis of the current situation and to provide practical and effective recommendations.

The project is a complex and challenging task. The contractor is expected to demonstrate a high level of technical expertise and problem-solving skills throughout the project.

The project is a significant investment for the client. The contractor is expected to provide a high level of customer service and to ensure that the client is satisfied with the results of the project.

The project is a long-term commitment for the client. The contractor is expected to provide ongoing support and assistance to the client throughout the project and beyond.

The project is a key element of the client's land management program. The contractor is expected to provide a high level of transparency and accountability throughout the project.

The project is a vital part of the client's land management efforts. The contractor is expected to provide a high level of dedication and commitment to the success of the project.
