REPORT OF THE COMMISSIONER OF PLANT INDUSTRY

For the year ending June 30, 1914

Presented to the Senate and House of Representatives
at their several sessions, in accordance with the provisions of the Act of March 3, 1879, (20 Stat. 398)

WASHINGTON: GOVERNMENT PRINTING OFFICE
1915

The following report of the Commissioner of Plant Industry, for the year ending June 30, 1914, is submitted in accordance with the provisions of the Act of March 3, 1879, (20 Stat. 398), which provides that the Commissioner of Plant Industry shall submit to the Senate and House of Representatives, at their several sessions, a report of the progress of the work of the Bureau of Plant Industry, and of the results of the investigations conducted by the Bureau, and of the condition of the various plant industries of the United States, and of the progress of the work of the Bureau of Plant Industry, and of the results of the investigations conducted by the Bureau, and of the condition of the various plant industries of the United States.

Item	Amount	Balance	Total
Salaries	1,000.00	1,000.00	2,000.00
Travel	500.00	500.00	1,500.00
Printing	200.00	200.00	1,300.00
Postage	100.00	100.00	1,200.00
Telephone	50.00	50.00	1,150.00
Light and Heat	50.00	50.00	1,100.00

Interest	50.00	50.00	950.00
Other	50.00	50.00	900.00

The following is a summary of the work of the Bureau of Plant Industry, for the year ending June 30, 1914:

The Bureau of Plant Industry has been very successful in its work during the year ending June 30, 1914. It has conducted a large number of investigations into the various plant industries of the United States, and has been successful in identifying the causes of many of the diseases and pests which have been attacking these industries. It has also been successful in developing many new methods of controlling these diseases and pests, and in introducing many new plant varieties into the United States. The Bureau has also been very successful in its work in the field of plant breeding, and has been successful in developing many new plant varieties which are better adapted to the conditions of the United States than the varieties which have been previously introduced.
