

CITIES SERVICE OIL COMPANY  
Box 97  
Hobbs, New Mexico

Oil Conservation Commission  
State of New Mexico  
Santa Fe, New Mexico

Re: Application of Cities Service Oil  
Company for Approval of an Unorthodox  
Gas Unit Embracing 160 Contiguous  
Acres in the Eumont Gas Pool, Lea  
County, New Mexico

Gentlemen:

Comes now Cities Service Oil Company, hereinafter called "applicant", and respectfully requests the Oil Conservation Commission of the State of New Mexico to approve an unorthodox gas proration unit lying wholly within the limits of the Eumont Gas Pool, namely the NE/4 NE/4 Section 8 and the W/2 SE/4 and the SE/4 SE/4 Section 5, T20S, R37E, N.M.P.M., Lea County, New Mexico, and in support thereof does state:

1. That the Applicant is the sole owner of all leases on the 160 acres confined by the boundaries of the NE/4 NE/4 Section 8 and the W/2 SE/4 and the SE/4 SE/4 Section 5, T20S, R37E, N.M.P.M., and concerns but a single royalty owner.

2. That the Applicant's Laughlin Well No. 5 is located 2310' from the East Line and 330' from the South Line of the section, and is completed within the vertical limits of the Eumont Gas Pool as defined by the New Mexico Oil Conservation Commission.

3. That the Applicant's dually completed well is capable of production from the Eumont Gas Pool.

4. That a plat showing the above described lands and all offset properties indicating well locations and lease ownership to the best of our knowledge is hereto attached.

5. That there are no other gas wells in the SE/4 and unitization of the Applicant's 120 acres with the NE/4 SE/4 Section 5, T20S, R37E, N.M.P.M., does not seem feasible.

6. That there are no gas wells in the NE/4 of Section 8, T20S, R37E, with which the Applicant's 40 acres may be unitized. The Applicant feels that Laughlin No. 5 located in Section 5, T20S, R37E, will drain the full 160 acres lying in Sections 5 and 8. That considerable expense has been involved in drilling and completing said well and that it should receive full unit allowable. That the applicant should not be required to drill an additional well in order to receive an allowable for the 40 acres located in the NE/4 NE/4 Section 8, T20S, R37E, when said lease can be drained with the present gas well.

The above-mentioned plat is on  
file in the OCC office in Santa Fe,  
New Mexico.

Respectfully submitted,  
CITIES SERVICE OIL COMPANY
