

PROVIDED FURTHER, That upon the actual dual completion of such subject well, applicant shall submit to the Commission a diagrammatic sketch of the mechanical installation which was actually used to complete and produce the seal between the strata, and a special report of production, gas-oil ratio and reservoir pressure determination of each producing zone or stratum immediately following completion.

IT IS FURTHER ORDERED, That jurisdiction of this cause is hereby retained by the Commission for such further order or orders as may seem necessary or convenient for the prevention of waste and/or protection of correlative rights; upon failure of applicant to comply with any requirement of this order after proper notice and hearing, the Commission may terminate the authority hereby granted and require applicant or its successors and assigns to limit its activities to regular single-zone production in the interests of conservation.

APPROVED at Santa Fe, New Mexico, on this 28th day of July, 1953.

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION

R. R. SPURRIER
Secretary - Director

S E A L

1. The purpose of this document is to provide information regarding the current status of the project and to outline the steps that need to be taken to complete it. It is important that all team members are aware of the progress and the challenges that we are facing.

2. The project has been delayed due to a number of factors, including a lack of resources and a change in priorities. However, we are confident that we can complete the project by the end of the year. We need to focus on the most important tasks and ensure that we have enough resources to complete them.

3. The following are the key tasks that need to be completed:

4. The project manager has been assigned to coordinate the efforts of the team and to ensure that the project is completed on time. The team members are responsible for completing their assigned tasks and for reporting progress to the project manager.
