The American Medical Association is a non-profit corporation organized for the purpose of promoting the science and art of medicine and the health of the people. It is composed of members who are physicians, dentists, nurses, and other health workers. The Association is organized into various departments and committees, each of which is responsible for a specific area of medical practice. The Association's primary concern is the advancement of medical knowledge and the improvement of medical care for the public. It does this by publishing the Journal, which contains the latest research and findings in the field of medicine. The Association also holds annual meetings and conferences where medical professionals can share their knowledge and experiences. In addition, the Association provides a variety of services to its members, including insurance, legal advice, and financial planning. The Association's efforts have resulted in many important advances in medicine and the health of the people.
