Comes now Anderson-Prichard Oil Corporation and in support
of its Application, states:

1. Applicant is the operator of the Britt "B" No. 1 well located 660 feet from the South Line and 1980 feet from the West Line of Section 5, Township 20 South, Range 37 East, Lea County. There is attached to this Application and identified as Exhibit "A", a plat showing the location of the well, the location of off-set wells, and the leasehold ownership of the tracts offsetting the Britt "B" lease.
2. The Britt "B" No. 1 well was drilled to a total depth of 3895 feet and was completed in January, 1937. Thirteen inch casing was set at 250 feet; 9 5/8 inch intermediate casing was set at 2436 feet; and 7 inch production casing was set at 3700 feet. The well is presently producing oil from the San Andres formation through 2 inch tubing set at 3865 feet.
3. Applicant proposes to dually complete the well as follows:
 - (a) Continue to produce the San Andres formation (Monument Oil) through two inch tubing;
 - (b) Produce the gas from the Queen Sand (Eumont Gas), the top of which is at 2585 feet, through the annular space between the intermediate string and the production string.
4. Attached to this Application and identified as Exhibit "B" is a diagrammatic sketch of the proposed dual completion of the Britt "B" No. 1 well.
5. The dual completion of this well in the above described manner is mechanically feasible and practical and is in the interest of conservation and the protection of correlative rights.
6. Applicant has mailed a copy of this Application to each of the following offset operators:
