Re: Britt A-6 No. 1
SW/4 Section 6, T-20-S, R-37-E
Lea County, New Mexico
Non-Standard Proration Unit

Gentlemen:

We recently reentered and recompleted as a Eumont (Gas) producer the Britt A-6 No. 1 located 660' FSL and 660' FWL (M), Section 6, T-20-S, R-37-E, Lea County, New Mexico. This well is located within the previously existing 80-acre non-standard Eumont (Gas) proration unit consisting of the W/2 SW/4, Section 6, T-20-S, R-37-E, Lea County, New Mexico which was created by the NMOCD Force Pooling Order R-494 dated July 7, 1954. It ceased to exist with the plugging and abandonment of the Continental Oil Company Britt A-6 No. 4 located 2310' FSL and 510' FWL (L), Section 6, T-20-S, R-37-E, Lea County, New Mexico in March, 1987.

Therefore, as a result of our reentry, we respectfully request administrative approval to reinstate the 80-acre non-standard Eumont (Gas) proration unit and to dedicate our Britt A-6 No. 1 (M-6-20S-37E) to this proration unit.

Three (3) copies of a color coded land map outlining the subject 80-acre non-standard Eumont (Gas) proration unit, as well as the location of our Britt A-6 No. 1 reentry are enclosed for your review. Supplementing the enclosed land plat is a companion table describing by tract number all Eumont (Gas) proration units (including the operators of the Eumont rights) that offset the Britt A-6 No. 1.

Complete copies of this application have also been sent by certified mail to all offsetting parties owning Eumont (Gas) rights as described on the enclosed plat and table. The following is a list of those offset operators:
