Dear Sir:-

I wish to obtain permission to save bradenhead gas on
the George. C. Matthews No.1, Center SW/4 of SW/4 of Section
Section 6-20a-37e, Lea County, New Mexico. This is for the purpose
of operating the lease.

We propose to run 25 sack cement on the 7" string of casing.

Please advise if this procedure is alright.

Yours truly,
