

THE HISTORY OF THE

ROYAL SOCIETY OF LONDON AND THE HISTORY OF THE ROYAL SOCIETY OF MEDICINE

The Royal Society of London, founded in 1660, was the first scientific society in England. It was founded by a group of natural philosophers, including Robert Boyle, Christopher Wren, and Robert Hooke. The society's purpose was to promote the study of natural philosophy and to disseminate the results of their research. The society's members were known as the 'Invisible College' and they met in a secret location in London. The society's first meeting was on 28th December 1660, and it was attended by 12 members. The society's first president was Christopher Wren, and its first secretary was Robert Boyle. The society's first meeting was held in a room in the house of Christopher Wren, and it was attended by 12 members. The society's first meeting was held in a room in the house of Christopher Wren, and it was attended by 12 members.

The Royal Society of Medicine, founded in 1825, was the first medical society in England. It was founded by a group of medical professionals, including William Hall, John Hunter, and John Keble. The society's purpose was to promote the study of medicine and to disseminate the results of their research. The society's members were known as the 'Invisible College' and they met in a secret location in London. The society's first meeting was on 28th December 1825, and it was attended by 12 members.
