Barnsdall Oil Company  
Box 2039  
Tulsa, Oklahoma

Gentlemen:

I am returning herewith an approved copy of form C-101,  
"Notice of Intention to Drill" for your Alaska Cooper #2.

In regard to the cementing program of your 7" casing,  
75 sacks will not bring the cement to the base of the next  
larger string.

If you want to save the braden-head gas, kindly submit  
your program in triplicate. (See special rules for this area  
on pages 8 and 9 of the enclosed circular).

Very truly yours,

FJV:t

Enc.

F. J. Vesely,  
State Oil & Gas Inspector.
