## Proposed Well Work

In compliance with the BLM's notice of July 24, 2000, and, in followup, to our 3160-5, dated November 27, 2000 (approved December 27, 2000), we hereby propose the following well work, corresponding to the long-abandoned H.M. Britt No. 11 well.

1. Rebuild highly eroded well location, for safe accommodation of well service unit.
2. Move in and rig up well service unit.
3. Pull and lay down corroded and defective tubing.
4. Clean out wellbore, to PBTD of 3610'.
5. Rig up Schlumberger. Log well with VDCBL-GR-CCL log and DS-CNL-GR-CCL log.
6. Squeeze cement, as indicated necessary (by VDCBL-GR-CCL log), including all currently non-squeezed non-producing perms.
7. Drill out cement.
8. Perform casing integrity test.
9. Based upon results of newly run well logs,
  - A. Return well to beneficial use, to protect lease gas reserves, from off-lease water encroachment; or
  - B. Abandon well, in accordance with NMOCD Order R-9210.
