17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Well has been temporarily abandoned since 1961 due to excessive water/oil ratio. Proposal is made to squeeze perforations 5640-90 and 5540-42, drill out to 5660, and perforate 5642-48. This interval of the Blinebry to be tested natural then acidized and/or fract if warranted.

18. I hereby certify that the foregoing is true and correct
