

NEW MEXICO OIL CONSERVATION COM.
SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES OCT 1 - 1951

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work is to begin. A copy will be returned to the sender on which will be given the approval or disapproval. If disapproval is considered advisable, on the rejection by the Commission or agent, of the plan submitted. The plan as approved shall be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the.....

Gulf Oil Corporation B. Whitwire Well No. 1 in SW NE
Company or Operator Lease
of Sec. 8, T. 20S, R. 37E, N. M. P. M. Monument Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was completed October 24, 1936, at a total depth of 3882' in the Upper San Andres as an oil well. This well at present has a GOR of 47,530 which limits production of oil to 3 barrels per day.

We propose to run a Radio Activity Survey, set a wire line bridging plug at 3765', and dump 5' of cement above the plug. We then propose to perforate the 5 1/2" casing opposite the Lower Grayburg over intervals determined by the Radio Activity Survey with 4 jet holes per foot in an attempt to obtain top allowable production.

Approved....., 19.....
