NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

**MISCELLANEOUS NOTICES**

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Gulf Oil Corporation B. Whitwire Well No. 2 in NW NE  
Company or Operator Lease  
of Sec. 8, T. 20S, R. 37E, N. M. P. M. Monument Field.  
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Well was completed February 11, 1937, at a total depth of 3891' in the Upper San Andres Formation as an oil well. This well at present has a GOR of 32,534 which limits production to 5 bbls oil per day.

We propose to run a Radioactivity Survey, set a wire line bridging plug at 3880', and dump 1/2' sack cement on top. We then propose to jet perforate the 7" casing opposite the Lower Crayburg over intervals as determined from the Radioactivity Survey with 4 jet holes per foot in an attempt to lower the GOR and obtain top allowable production.

Approved JAN 10 1952, 19\_\_\_\_\_  
except at follows:

Gulf Oil Corporation  
Company or Operator
