17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Plan to run Gamma Ray and Correlation Log and set retrievable plug to isolate San Andres and Grayburg Zones. Will perforate Grayburg Zone and sand-water fracture treat with 1000 barrels fresh water and 30,000 lbs. sand. Plug will then be removed and well returned to production status. Well is presently producing from San Andres Zone only through open hole.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
