OFFICE OF THE STATE GEOLOGIST  
SANTA FE, NEW MEXICO

## MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF SHOOTING WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF WATER SHUT-OFF	<b>XXX</b>	REPORT ON REPAIRING WELL	
REPORT ON RESULT OF ABANDONMENT OF WELL

OFFICE OF THE STATE GEOLOGIST

ANNUAL REPORT ON WORK

The report on the work of the State Geologist for the year 1900 is herewith submitted. It contains a full and complete account of the work done during the year, and of the progress of the various projects which are now in progress. The report is divided into two parts, the first of which contains a general statement of the work done, and the second of which contains a detailed account of the work done on each of the various projects.

The work of the State Geologist for the year 1900 has been very successful. A large amount of work has been done, and many of the projects which were started in 1899 have been completed. The work has been done in accordance with the plan which was adopted at the beginning of the year, and it is believed that the results obtained will be of great value to the State.

The following is a list of the projects which were started in 1899 and which have been completed during the year 1900:

1. A geological map of the State, showing the distribution of the various rock formations, and the location of the various mines and quarries. This map was completed in the month of June, 1900.

2. A geological map of the State, showing the distribution of the various rock formations, and the location of the various mines and quarries. This map was completed in the month of June, 1900.

3. A geological map of the State, showing the distribution of the various rock formations, and the location of the various mines and quarries. This map was completed in the month of June, 1900.

4. A geological map of the State, showing the distribution of the various rock formations, and the location of the various mines and quarries. This map was completed in the month of June, 1900.

5. A geological map of the State, showing the distribution of the various rock formations, and the location of the various mines and quarries. This map was completed in the month of June, 1900.
