

Mr. J. T. Sexton  
Oil Conservation Commission

-2-

File: SWS-538-101  
April 18, 1978

will confirm that injection is confined to the pay section and is not communicating with the intermediate casing. After the workover, close monitoring of the well will continue so that any problems that might arise will be detected quickly.

Very truly yours,

A handwritten signature, likely of a man, written in dark ink. The signature is stylized and appears to be a first name followed by a last name, though the specific letters are not clearly legible due to the cursive style.
