

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
 SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas Inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF SHOOTING WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF WATER SHUT-OFF		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF ABANDONMENT OF WELL		REPORT ON ACID TREATMENT	X

Hobbs, New Mexico March 9, 1934
PLACE DATE

Mr. E. H. Wells State Geologist,
 Santa Fe, N. Mex.

Following is a report on the work done and the results obtained under the heading noted above at the

Stanolind Oil & Gas Company State Well No. 4 in the
COMPANY OR OPERATOR LEASE
SE 1/4 of Sec. 4, T. 19 S, R. 38 E, N. M. P. M.,
Hobbs Oil Field, Lee County.

The dates of this work were as follows: Acid treatment on February 21, 1934

Notice of intention to do the work was (~~submitted~~) submitted on Form SG 105 on
February 2, 1934, and approval of the proposed plan was (~~submitted~~) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

Well was treated with 1,000 gallons 80% commercial Hydrochloric acid solution on February 21st. The well was shut in and left shut in for forty eight hours, until February 23rd, when the well was opened up and allowed to flow. It was not necessary to swab the well in. The well was then allowed to flow at its production allowable until the official production test which was made on March 8th. The potential before acid treatment was 2,275 barrels of oil with 5,000,000 estimated cubic feet of gas. After acid treatment the potential is 5,350 barrels of oil with 7,894,000 cubic feet of gas, an increase of 235%. Open flow test through tubing on production test was 3,856 barrels, which placed on tubing-casing curve gave the well a new potential of 5,350 barrels for open flow.

DUPLICATE

Subscribed and sworn to before me this

9th day of March, 1934.

THE UNIVERSITY OF CHICAGO

The University of Chicago is a private research university in Chicago, Illinois. It was founded in 1837 as the first American university to be organized on the basis of the European model. The university is known for its commitment to academic excellence and its diverse student body. It has a long history of producing world-class scholars and leaders in various fields of study.

The university is organized into several divisions, including the Division of the Physical Sciences, the Division of the Biological Sciences, the Division of the Social Sciences, and the Division of the Humanities. Each division is further divided into departments and centers. The university is also known for its extensive library system, which includes the James H. Matheson Library and the University of Chicago Press.

The University of Chicago is a member of the Association of American Universities and the Association of Research Universities. It is also a member of the Ivy League and the Big Ten Conference. The university has a strong reputation for its research and its commitment to the public good. It has produced many notable alumni, including several Nobel laureates and Pulitzer Prize winners.

The University of Chicago is a leader in the field of education. It has a long history of innovation in teaching and learning. The university is known for its small class sizes and its emphasis on critical thinking and problem-solving. It has also been a pioneer in the use of technology in education. The university is committed to providing a high-quality education for all students, regardless of their background or financial situation.
