

NEW MEXICO STATE LAND OFFICE  
OFFICE OF THE STATE GEOLOGIST  
SANTA FE, NEW MEXICO

## MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas Inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS	REPORT ON DEEPENING WELL
REPORT ON RESULT OF SHOOTING WELL	REPORT ON PULLING OR OTHERWISE ALTERING CASING
REPORT ON RESULT OF TEST OF WATER SHUT-OFF	REPORT ON REPAIRING WELL
REPORT ON RESULT OF ABANDONMENT OF WELL	REPORT ON ACID TREATMENT <span style="float: right;"><b>X</b></span>

Mr. E. H. Wells State Geologist, Hobbs, New Mexico Sept. 22, 1934  
 Santa Fe, N. Mex. PLACE DATE

Following is a report on the work done and the results obtained under the heading noted above at the Stanolind Oil and Gas Company Byers Well No. 8 in the Lease  
NW 1/4 of Sec. 5, T. 19 S, R. 50 E, N. M. P. M.,  
Hobbs Oil Field, Lea County.

The dates of this work were as follows: Acid treatment on Sept. 8, 1934

Notice of intention to do the work was (~~was not~~) submitted on Form SG 105 on August 30, 1934, and approval of the proposed plan was (~~was not~~) obtained. (Cross out incorrect words.)

### DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

Well was treated with 2,000 gallons 50% commercial Hydrochloric acid solution on September 8th. The well was shut in and left shut in for thirty six hours, until September 10th, when it was swabbed in. The well was then allowed to flow at its production allowable until the official production test which was made on September 21st. The potential before acid treatment was 5,000 barrels of oil with 7,172,000 cubic feet of gas. After acid treatment the potential is 9,817 barrels of oil with 19,856,000 cubic feet of gas, an increase of 160%. Open flow test through tubing and casing on production test was 9,817 barrels.

DUPLICATE

Subscribed and sworn to before me this

22nd day of September, 1934.

E. H. Wells

BUREAU OF LAND MANAGEMENT  
WASHINGTON, D. C. 20250

GENERAL INSTRUCTIONS TO FIELD OFFICES

1. The purpose of this document is to provide general instructions to field offices regarding the preparation and submission of reports. These instructions are intended to ensure that all reports are prepared in a consistent and professional manner, and that they contain the necessary information for the Bureau to make informed decisions regarding land management.

2. Reports should be prepared in accordance with the following guidelines:

- a. Reports should be prepared in triplicate, with one copy submitted to the Bureau, one copy retained by the field office, and one copy submitted to the appropriate state or local agency.
- b. Reports should be prepared in a clear and concise manner, using simple and direct language.
- c. Reports should be prepared in a professional and legible manner, using a standard font and appropriate margins.
- d. Reports should be prepared in a timely manner, and submitted to the Bureau as soon as possible after the completion of the field work.

3. The following information should be included in all reports:

- a. A title page containing the title of the report, the name of the field office, and the date of the report.
- b. A summary page containing a brief overview of the report's findings and conclusions.
- c. A table of contents containing a list of the report's sections and their corresponding page numbers.
- d. A list of figures and tables containing a list of the report's figures and tables, and their corresponding page numbers.
- e. A list of references containing a list of the report's references, and their corresponding page numbers.
- f. A list of appendices containing a list of the report's appendices, and their corresponding page numbers.

4. The following information should be included in all reports:

- a. A list of the report's authors, and their corresponding page numbers.
- b. A list of the report's reviewers, and their corresponding page numbers.
- c. A list of the report's sponsors, and their corresponding page numbers.
- d. A list of the report's funding sources, and their corresponding page numbers.
- e. A list of the report's distribution list, and their corresponding page numbers.
- f. A list of the report's contact information, and their corresponding page numbers.

5. The following information should be included in all reports:

- a. A list of the report's keywords, and their corresponding page numbers.
- b. A list of the report's subject terms, and their corresponding page numbers.
- c. A list of the report's abstracts, and their corresponding page numbers.
- d. A list of the report's conclusions, and their corresponding page numbers.
- e. A list of the report's recommendations, and their corresponding page numbers.
- f. A list of the report's appendices, and their corresponding page numbers.

6. The following information should be included in all reports:

- a. A list of the report's figures, and their corresponding page numbers.
- b. A list of the report's tables, and their corresponding page numbers.
- c. A list of the report's references, and their corresponding page numbers.
- d. A list of the report's appendices, and their corresponding page numbers.
- e. A list of the report's contact information, and their corresponding page numbers.
- f. A list of the report's distribution list, and their corresponding page numbers.
