Temporarily Shut-In

Oil Conservation Commission
Santa Fe, New Mexico

Gentlemen:

Kindly be advised that due to present shortage of vital materials needed in prosecution of the war effort and such materials being needed for installation in obtaining economical production, we find it necessary to temporarily shut-in our Terry Tr. 1, Well #26 located in Section 9, T-19-S, R-36-E, Hobbs Field, Lea County, New Mexico.

At such time that this equipment is more readily obtainable, we propose to resume operations.

Yours very truly,

STANOLIND OIL AND GAS COMPANY
