

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas Inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS	REPORT ON DEEPENING WELL
REPORT ON RESULT OF SHOOTING WELL	REPORT ON PULLING OR OTHERWISE ALTERING CASING
REPORT ON RESULT OF TEST OF WATER SHUT-OFF	REPORT ON REPAIRING WELL
REPORT ON RESULT OF ABANDONMENT OF WELL	REPORT ON ACID TREATMENT X

Hobbs, New Mexico

March 14, 1934

PLACE

DATE

Mr. E. H. Wells State Geologist,
Santa Fe, N. Mex.

Following is a report on the work done and the results obtained under the heading noted above at the Stamolin Oil & Gas Company State Well No. 2 in the SW 1/4 of Sec. 10, T. 19 S, R. 32 E, N. M. P. M., Hobbs Oil Field, Lea County.

The dates of this work were as follows: Acid treatment on March 2, 1934

Notice of intention to do the work was (~~vacant~~) submitted on Form SG 105 on February 2, 1934, and approval of the proposed plan was (~~vacant~~) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

Well was treated with 1,000 gallons 80% commercial Hydrochloric acid solution on March 2nd. The well was shut in and left shut in for forty eight hours, until March 4th, when it was swabbed in. The well was then allowed to flow at its production allowable until the official production test which was made on March 13th. The potential before acid treatment was 476 barrels of oil with 1,500,000 estimated cubic feet of gas. After acid treatment the potential is 1037 barrels of oil with 2,100,000 cubic feet of gas, an increase of 220%. Open flow test through tubing on production test was 1037 barrels. The tubing test of this well was not placed on the tubing-casing curve.

DUPLICATE

Subscribed and sworn to before me this

13th day of March, 1934.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and compares them with the previous studies in the field.

4. The fourth part of the report is a conclusion and a list of recommendations. It summarizes the main findings of the study and provides suggestions for future research.

5. The fifth part of the report is a bibliography of the sources used in the study. It lists the books, articles, and other references that were consulted during the research process.

6. The sixth part of the report is an appendix containing additional information related to the study. It includes tables, figures, and other supplementary materials.

7. The seventh part of the report is a list of the authors and their affiliations. It provides information about the individuals who conducted the research and the institutions they represent.

8. The eighth part of the report is a final summary of the study. It reiterates the main findings and the significance of the research.

9. The ninth part of the report is a list of the key words used in the study. It provides a concise summary of the main topics and concepts discussed in the report.

10. The tenth part of the report is a list of the acknowledgments. It expresses gratitude to the individuals and organizations that provided support and assistance during the research process.

11. The eleventh part of the report is a list of the references. It provides a comprehensive list of the sources used in the study, including books, articles, and other references.

12. The twelfth part of the report is a list of the appendices. It includes information about the additional materials that are provided as part of the report.

13. The thirteenth part of the report is a list of the authors and their affiliations. It provides information about the individuals who conducted the research and the institutions they represent.

14. The fourteenth part of the report is a final summary of the study. It reiterates the main findings and the significance of the research.

15. The fifteenth part of the report is a list of the key words used in the study. It provides a concise summary of the main topics and concepts discussed in the report.

16. The sixteenth part of the report is a list of the acknowledgments. It expresses gratitude to the individuals and organizations that provided support and assistance during the research process.
