Gentlemen:

On April 18, 1957, we plugged our Will Terry No. 1 well located in Unit C, Section 17, T-19-S, R 38-E, Lea County, New Mexico, and Form C-103 was submitted in accordance with Commission Rule 1106.

We have no record of receiving final approval on our plugging operation from your office and would appreciate your advising if our Form C-103 has been approved.

Yours very truly,

FELMONT OIL CORPORATION
