JAN 5 1950
RECEIVED

HOBBS OFFICE

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of notice by checking below:

NOTICE OF INTENTION TO TEST CASING SHUT-OFF		NOTICE OF INTENTION TO SHOOT OR CHEMICALLY TREAT WELL	
NOTICE OF INTENTION TO CHANGE PLANS		NOTICE OF INTENTION TO PULL OR OTHERWISE ALTER CASING	
NOTICE OF INTENTION TO REPAIR WELL		NOTICE OF INTENTION TO PLUG WELL	
NOTICE OF INTENTION TO DEEPEN WELL	X

Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Stanolind Oil & Gas Co. Anna L. Foster "A" Well No. 1 in SE/4
Company or Operator Lease
of Sec. 23, T. -19-S, R. -38-E, N. M. P. M., Wildest Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

After drilling and testing the Drinkard formation to a depth of 7250 feet, it was decided to deepen the subject well for testing the Devonian formation.

Notice is hereby filled, requesting authorization to deepen the subject well to approximately 8020 feet in order to test the oil productive possibilities in the Devonian formation.

In the event unfavorable indications for Devonian production are obtained after deepening, consideration will be given to plugging back for completion in the Drinkard Pay.

Approved JAN 5 1950, 19
except as follows:

THE REACTION OF HYDROGEN PEROXIDE WITH
HYDROLYZABLE POLYMERIZATION PRODUCTS
OF VINYL MONOMERS

BY J. H. HARRIS AND J. H. HARRIS

DEPARTMENT OF CHEMISTRY, THE UNIVERSITY OF CHICAGO,
CHICAGO, ILLINOIS 60637

RECEIVED JANUARY 15, 1968
REVISED APRIL 15, 1968

ABSTRACT: The reaction of hydrogen peroxide with the
hydrolyzable polymerization products of vinyl monomers
has been studied.

INTRODUCTION

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied. The reaction of hydrogen peroxide with the
hydrolyzable polymerization products of vinyl monomers
has been studied.

EXPERIMENTAL

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

RESULTS AND DISCUSSION

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

CONCLUSIONS

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.

The reaction of hydrogen peroxide with the hydrolyzable
polymerization products of vinyl monomers has been
studied.
