Gentlemen:

Reviewing the file for your Dalmont #1-N 6-19-37, wild-cat location, we find that the last forfiled was Form C-110 authorizing a transporter for an advance allowable. This form was approved by Mr. S. J. Stanley on November 11, 1954. Since that time we have had no further word concerning the status of this well. We ask that you check into this matter as promptly as possible and give us a letter describing the present status of the well. Please state your intentions regarding it, advising as to whether you intend to plug the well or continue testing, so that we may in turn advise you as to the necessary forms to be filed.

Yours very truly,

OIL CONSERVATION COMMISSION

A. L. Porter, Jr.
A. L. Porter, Jr.

9-9-55

Advise by Mr. Cunningham that the well is still trying to test but has been having mechanical troubles. Recently shut in for orders.
