13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well has been temporarily abandoned strictly due to economics. At today's prices this well is uneconomical to produce. Burk Royalty Co. requests that a 'temporarily abandoned status' be assigned to this well until there is sufficient gain in today's oil prices to at least \$17.00 per barrel. The well has sufficient down hole integrity that it is not a threat to the environment to remain in a temporarily abandoned status.
