J. N. G. PEW
ASSISTANT MANAGER

August 20, 1935.

Mr. F. J. Vesely,
Oil & Gas Inspector,
P. O. Box 522,
Carlsbad, New Mexico.

Dear Sir:

Through some misunderstanding, it appears that we have failed to file all of the necessary reports for the drilling of our No. 1, Wm. Maveety in the NE/4 of the SE/4 of Sec. 35, Twp. 19-S, R 36-E, Lea County, New Mexico, Monument Oil Field. Our Superintendent in Lea County, Mr. R. L. English, advised us that he had requested of you the necessary forms, but that you had informed him that our Dallas Office was submitting these reports. We have submitted these reports from Dallas on our wells drilled in New Mexico subsequent to the drilling of our No. 1 Maveety, and will continue to do so, but we had requested Mr. English to file these on the No. 1 Maveety.

Our records indicate that we have already filed Form SG-101 "Notice of Intention to Drill New Well", and Mr. English advises that he has filed the following:

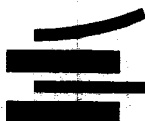

SG-106 Report of Beginning of Drilling Operations.
SG-109 Permission to Connect to Pipe Line.

Permission to Treat with Acid.
Result of Acid Treatment.

We are, therefore, inclosing herewith the balance of the forms required on this well, dating them as of the dates they should have been filed, as follows:

SG-103 (Notice of Intention to Test Water Shut-Off) and
SG-106 (Report on Result of Test of Water Shut-Off)
for each string of casing set: 13" OD, 9-5/8" OD, and
7" OD.
SG-108 (Well Record).

We trust this meets with your approval, and are sorry we were delinquent in this matter. You may be

LTR**Job separation sheet**

2.

sure that all of the necessary forms will be submitted from this office on our present and future drilling operations in New Mexico.

Yours very truly,

M I Brown

CC- Mr. R. L. English, P O Box 139, Odessa, Texas.
- Mr. J. A. Ritter.

PS: We find that we will require the following forms:

50 - SG-106 "Miscellaneous Reports on Wells".
50 - SG-103 "Notice of Intention to Test Water Shut-Off"
15 - SG-108 "Well Record".
