Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1503.

It is proposed to deepen the subject well 179' from the current TD of 3825' to a new TD of 4004'. Log with GR-CNL-CDL-CCL w/caliper. Treat as necessary and place on production. This well is a candidate for a liner due to high water production from the Penrose/zone 1.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

M. E. Akers
