Gentlemen:

Permission is hereby requested for an exception to Rule 402 of the Rules and Regulations which requires that an annual shut-in pressure test be conducted on all gas wells. Exception is requested for the following well:

G. C. Matthews #2, Sec. 6-20S-37E Lea County, New Mexico.

This well supplies our fuel gas to our Bertie Whitmire lease and a 72-hour shut-in would result in loss of production.

Please advise.

Yours very truly,
