13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Burk Royalty Co. moved a rig on this well February 28, 1994. We were able to drill up the packer at 2,067' and clean out the hole. Based on our success, we are in the process of applying to the New Mexico Oil Conservation Division for an injection permit in the Yates formation. Upon approval of the permit by the Oil Conservation Division, we will convert the well to injection.
