Re: W. N. Price Burner #5
NM 036259

Dear Mr. Price:

You have advised us that you have filed an amended Notice of Intention to Drill amending your Notice of January 22, 1964 and that the amended location proposes the drilling of a Yates - Seven Rivers test (subject to the drilling, casing and cementing program of NMOCC Order R-111-A) at a location 760 feet from the south line and 1,656 feet from the east line of Section 9, Township 20 South, Range 32 East.

As the owners of a potash lease or leases within a mile of the proposed location, you are advised that we have no objection to the drilling of the proposed well so long as the drilling program specified by the OCC Order is complied with. We would also like to request that you advise us when you are ready to set casing at the top of the salt.

Sincerely yours,

HARROUN & HAWORTH
