Re: Drilling of a shallow
test (2600') in SE/4 NW/4
Section 16, 20S-32E,
Lea County, New Mexico

Dear Sir,

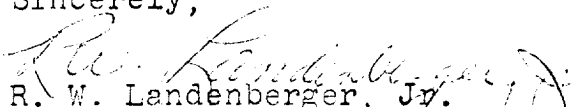

Attached are copies of the surveyors plat and State form C-101 (Intent to drill), showing the location and procedures for a shallow test proposed to be drilled at a location 2310' from the north line and 2310' from the west line of section 16, T20S-R32E.

This letter is respectfully submitted as notification of the proposal to drill the above well, which will be called William W. Lomerson #16 State, Little Eddy Unit.

This well will be drilled and completed or plugged and abandoned in compliance with the NMOCC order No. R-111-A. Any potash companies directly involved with the manner in which compliance is done will be kept posted as to the progress of the well, and their representatives will be welcome at the well at any time during operations.

If the location of and the procedures outlined in the Intent to Drill are acceptable by your company, please sign both copies of this letter in the space provided and return one copy to my office.

Sincerely,

R. W. Landenberger, Jr.
(Agent for William W. Lomerson)

Proposal to the drilling of the above well is hereby
accepted by the National Potash Company.

By- T. Y. Ferguson
T. Ferguson, President.
