ATTN: Mr. Jerry Sexton

RE: State JD Com No. 1  
Sec. 29, T-20-S, R-36-E,  
Lea County, New Mexico

Sir:

We are seeking administrative approval to store water produced from the above captioned well in an open earth pit. As you can see from the enclosed water production reports the well only makes an average of 1/2 BWPD. We feel that it would be economically beneficial for us to pit this small amount of water due to the inconvenience of trucking the produced water from the extremely distant wellsite.

The pit would be lined with plastic to prevent against contamination of underground water and fenced to protect livestock in the area. We would welcome any suggestions and should you desire further information, please contact me.

Sincerely.

Michael D. Oney,  
Drilling Superintendent
