

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

Yates Petroleum Corporation
Treat "LI" Federal #1
990' FSL and 1650' FWL

This plan is submitted with Form 9-331C, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operation.

1. EXISTING ROADS.

Exhibit A is a portion of a USGS topographic map showing the wells and roads in the vicinity of the proposed location. The proposed wellsite is located approximately 40 miles east of Carlsbad, New Mexico and the access route to the location is indicated in red and green on Exhibit A.

DIRECTIONS:

1. Proceed east from Carlsbad on Highway 181 for a distance of approximately 32.5 miles.
2. Turn southwest on to State 176 for approximately 7 miles.
3. Turn north and go for approximately .8 of a mile to a well location. This road will have to be rebladed and a cattle guard installed at fence. The new road will start here.

2. PLANNED ACCESS ROAD.

- A. The proposed new access will be approximately 1500' in length from point of origin to the edge of the drilling pad. The road will lie in a south-to-north direction. There is a pipeline east-to-west approximately 40' south of hole location.
- B. The new road will be 12 feet in width (driving surface).
- C. The new road will be covered with the necessary depth of caliche or other suitable material. The surface will be crowned, with drainage on one side.
- D. The new road has been flagged and the route of the road is clearly visible.

3. LOCATION OF EXISTING WELLS.

- A. Drilling activity within a one-mile radius of the wellsite is shown on Exhibit A. The nearest production is a gas well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 24-T20S-R33E.

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES.

- A. There are no production facilities on this lease at the present time.
