Re: Osudo State Comm #2
Sec. 18, T-20-S, R-36-E
Lea County, New Mexico

Gentlemen:

Enclosed please find the C-105 completion form for the above mentioned well in the N. Osudo Morrow Field. Flag-Redfern is unable to run a 4-point test because the well is flowing 25 to 30 MCFPD on 3/8" choke with a pressure of 0 - 20 psi. We are unable to get a stabilized flow rate and pressure; therefore we assume 30 MCFPD to be the absolute open flow rate. If you require further information, please contact me.

Sincerely yours,

John E. Scherer
Engineer
