Re: Bass State #5-C, Sec. 18, T20S. R33E

We are returning, unapproved, the C-103 on the above referenced well requesting shut in status, with the information indicating that the well has been shut in since 1992.

Due to the extended period of time that the well has been shut in, the following options are available:

1. Temporarily abandon the well utilizing the criteria outlined in Division Rule 203.
2. Plug and abandon the well after submitting a proposal on Form C-103 and receiving approval for the same.
3. Re-activate the well to beneficial use. A request may be submitted to receive a tax credit for wells that have been shut in and restored to active production. We are enclosing forms for your use if you choose this option.

We request that you submit your intent on a sundry notice, Form C-103, with your proposal for one of the above procedures, no later than September 16, 1997.

After the C-103 is received and evaluated, I will determine if your proposal will bring the well into compliance with OCD standards.

If you have any questions, please feel free to call.

Very truly yours
