Re: Jordan B #2-G
Sec 11, T20S, R35E
Lea Wolfcamp Gas Pool

Dear Mr. Vickers:

We have reviewed the data submitted on the above well and agree that it should be reclassified or should qualify for a hardship gas well classification.

I would like for you or someone from your office to set up a meeting to discuss the options available for this well. We do not want to reclassify it to oil and the GOR increase as soon as the well is allowed to produce.

I will look forward to hearing from you concerning a meeting on this matter.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

Re: Jordan B #2-G
Section 11, T20S, R35E
Lea Wolfcamp Gas Pool

Gentlemen:

Your C-104 requesting the reclassification of the above-referenced well from gas to oil has been received. Before we make a decision regarding this reclassification, please submit a tabulation of the oil and gas production for each month since the well was completed in 1985. Also, any periodic well test data will be helpful.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton

Re: Well Re-Classification
Jordan "B" #2-G
Sec. 11, T-20-S, R-35-E
Lea Wolfcamp Gas Pool

Dear Mr. Sexton:

In reference to your letter dated September 11, 1986, attached please find the requested production information. A tabulation of monthly production is included as well as a tabulation of weekly production averages. The latter should be more useful in making your decision as it contains more information such as flowing pressures and downtime. Please note that the well was placed on pump the week of August 20, 1986.

If you need any additional information or have any questions, please do not hesitate to contact the undersigned. Thank you in advance for your prompt attention to this matter.

Sincerely,

Corky Vickers
District Production Engineer
