Re: Anderson #1-0
Section 8, T20S, R37E

Gentlemen:

We have received Form C-103 covering the work done to downhole commingle the Paddock, Blinbry and Tubb zones in the above-referenced well. In order that we may assign an allowable to the Monument-Tubb zone it will be necessary for you to file Form C-104 (show only percent allocated to Tubb zone on C-104).

Also, R-8722 approved a non-standard proration unit for the Monument-Tubb Pool. Please file an acreage dedication plat for this pool outlining the 40-acres dedicated to the Tubb completion.

Please file a downhole commingled gas/oil ratio test (form C-116) in order that we may properly allocate the production to each zone.

If you have any questions concerning this, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION
