Mr. Jerry Sexton  
New Mexico Oil Conservation Commission  
Hobbs, New Mexico 88240

Dear Mr. Sexton:

Skelly 'D' State Well No. 4 (Section 1, T-20-S, R-36-E) spudded April 30, 1988 encountered an air blow at 1346' with a shut in of 180 psig. Another air blow at 1619' shut in at 1000 psig. The drilling fluid was 10 ppg brine water.

Yours very truly,

W. B. Cade  
District Operations Manager
