Re: Federal 11-20-34 Well #3-I
Sec. 11, T20S, R34E

Gentlemen:

We have received Form C-104 requesting authorization to transport oil and natural gas from the above-referenced well. We do not have a file for this well. It is our understanding from the BLM that you are having the drilling permit held confidential.

Rec'd 7-18-88
Rec'd 7-21-88
Before we can authorize the transportation of oil or gas from this well you must request that the BLM furnish us with two copies of your approved drilling permit. Also, you must file with us two notarized copies of a tabulated list of deviation surveys and two copies of Form C-102, acreage dedication plat, with the dedicated acreage outlined. This C-102 must be signed by a registered land surveyor.

(Also, since this is a gas well, we must have a notice of gas connection from your gas transporter, Phillips 66 Natural Gas.

As soon as the above items have been received your authorization to transport will be approved.

We will be glad to hold your logs confidential but the C-104 "Authorization to Transport" must be released.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
