Re: New Mexico F State Com #5-P  
Section 24, T19S, R36E  
Eumont Pool

Gentlemen:

A 160-acre non-standard proration unit consisting of the E/2 SE/4 Sec. 24, T19S, R36E, and the S/2 SW/4 Sec. 19, T19S, R37E was approved by Order R-591. This acreage involves your New Mexico F State Lease and your New Mexico G State Lease. The wells on this proration unit have all previously been located on the New Mexico G State Lease and "com" had been included in the lease name which was adequate. However, now you propose a gas well on the New Mexico F State Lease thereby having two different lease names on this proration unit. Our gas proration system only accommodates one lease name for multiwell units (MWU).

In view of the above, it will be necessary for you to arrive at a common name for this gas "com" and give that to both wells.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
