Re: Reclassification of Well
Eumont Pool
State A-3 Gas Com #2
Unit 0, Sec. 3, T20S, R37E

Gentlemen:

Due to the recently submitted scheduled gas/oil ratio test the above-referenced well will be reclassified from gas to oil effective July 1, 1992, and the gas allowable cancelled that date.

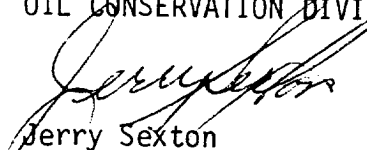

If for some reason you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by April 20, 1992.

If the well is to be reclassified from gas to oil, you will need to file revised Form C-102, acreage dedication plat, outlining 40 acres for this oil well completion. Also, if the gas transporter changes due to reclassification, you will need to file C-104 so indicating.

Also, if the State A-3 Gas Com #1-I currently TA'd is returned to production as a gas well while the #2 well is classified as an oil well you would need to have the NSP reduced to 120 acres.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

submitted new test Remains gas
