Re: Britt Laughlin Com Lease  
SE/4 and SE/4 SW/4 Sec. 5  
NE/4 NE/4 & NE/4 NW/4 Sec. 8  
T-20-S, R-37-E  
Lea County, New Mexico

Dear Jerry:

Attached please find four (4) copies of Form C-102 revised as to the above described lease eliminating the Britt Laughlin Com No. 5 well from the 280-acre proration unit as it was temporarily abandoned January 12, 1991.

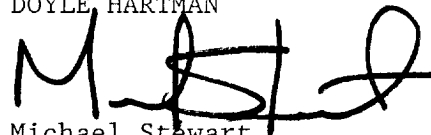

In accordance with your office's instructions, Harold Swain with our Jal office will make arrangements for the casing above the recently set cement retainer in the No. 5 well to be tested to 500 psig as witnessed by your representative.

Also, the recently drilled and completed Britt Laughlin Com No. 6 well has begun to make some oil and water in association with the Eumont Gas production, so I have enclosed a revised form C-104 designating Conoco Surface Transportation as the well's condensate transporter, as well as form C-103 describing the frac job on the No. 6 well and a revised C-116 showing a post frac test.

Should you have any additional questions, please contact me.

Very truly yours,

DOYLE HARTMAN
