

MULTIPOINT SURFACE USE AND OPERATIONS PLAN

Marathon Oil Company

LEA UNIT #15
1980' FSL & 760' FWL
Section 12, T-20-S, R-34-E
Lea County, New Mexico
Lease: NM-02127

This plan is submitted with the Application for Permit to Drill the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedure to be followed in rehabilitating the surface after the completion of all operations so that a complete appraisal can be made of the environmental effects associated with the proposed operations.

1. Existing Roads

Exhibit "A" is a portion of a topographic map showing the location of the proposed well as staked. At the intersection of U.S. 62-180 and the Marathon road west of Hobbs, proceed south on the Marathon Road 3.3 miles, turn west through a cattleguard and continue for .2 mi. to the location. All existing roads used to access the proposed location shall be maintained in the same or better condition than presently found.

2. Planned Access Roads

A. Length and Width

An access road will not be required as the proposed pad falls beside an existing road. The existing access road will enter the location from the southeast.

B. Surfacing Material

6" caliche rolled and packed.

C. Maximum Grade

Three Percent (3%)

D. Turnouts

None Required

E. Drainage Design

Natural drainage.
